PUBLIC INVOLVEMENT

Public participation is an important component to the Indian Bend Wash Master Planning Process. To ensure that park users and user groups, as well as nearby residents and property owners had an opportunity to initially provide their input or comments, and then later view the plan concepts, several opportunities for input were provided. The J2 Planning Team, along with City of Scottsdale staff, worked as a “one team” effort to provide a comprehensive, inclusive public engagement process.

The Planning Team’s Role:

- Attend Fall park events to seek input/comments from park users
- Develop a park plan questionnaire
- Attend and present information at public meetings

City of Scottsdale’s Role:

- Post signage at park locations to inform park users of the planning process
- Develop and update ScottsdaleAz.gov web information
- Post the park plan questionnaire on the project website and monitor responses
- Create mailing list for mail notifications
- Develop notifications for public meetings and facilitate printing/distribution
- Social media/NextDoor notifications of project progress and upcoming events or meetings

This public involvement summary focuses primarily on the planning team’s role in the engagement process.

Fall Park Events:

As an initial effort to seek input, the planning team attended several events at the parks to take advantage of Fall events that were already scheduled and be able to listen to park users and hear their thoughts related to park improvements.

The following events were attended:

- **Eldorado Park Grand ‘Ol Fashioned Picnic – September 22, 2018** – approximately **43 individuals** with their guest or children visited us to tell us how they currently use the park and what they would like to be able to do in the future.
- **Fall Festival – October 27, 2018** – approximately **31 individuals** with their guests or children, primarily in Halloween costumes, visited us to tell us how they currently use the park and what they would like to be able to do in the future.
- **Fishing Expo – November 17, 2018** – approximately **10 individuals** visited with the planning team to provide their thoughts.

- ## Fall Festival

As part of the public input process, a park plan questionnaire was developed and posted on the City's website. In addition, park plan questionnaires were provided to the Golf Course to seek input from their users.

Public Meetings:

Notifications were developed and mailed by the City of Scottsdale, and the planning team supplemented this effort by providing invitations to nearby HOAs, school, golf course, and various user groups. In addition, those who attended previous events or meetings, or completed the park plan questionnaire and provided their email address were emailed the information.

- **Public meeting #1 – January 9, 2019** – approximately **133 individuals** attended this meeting to provide information to the project team by telling us how they use the park now and how they'd like to use it in the future. Attendees were asked to place dots on activities they do currently in the park and also for activities they would like to do in the future but are not available currently. In addition, there was an opportunity to “build a park” by showing the team where ideal locations may be for amenities to be considered during the planning process. Individuals were asked to complete comment cards and a recap of these comments were compiled.

Public Meeting #1

- **Public meeting #2 – May 15, 2019** – approximately **137 individuals** attended this meeting to learn about and view the planning concept and provide their thoughts or comments related to the concept. Attendees were asked to listen to brief presentations related to each of the “district” concepts and then provide their thoughts or comments related to the concepts. Individuals were once again asked to complete comment cards with their thoughts and a recap of comments were compiled.
